# TRUCK CONE KIT

SKU 5150555

## DESCRIPTION

### *Wheel Balancer Truck Cone Spacer Kit / Fit 36 mm Shaft*

Smooth sailing is what your customers want. Balancing medium to heavy-duty truck wheels with their larger wheel hub openings can sometimes be challenging. But with Dannmar's double-sided centering cone kit that locates and secures these wheels onto the balancer's axis, you can balance truck wheels the first time. Dannmar's double-sided centering cone kit secures popular hub sizes from 4.75" to 6.75" onto the balancer's axis shaft. The Wheel Balancer Truck Cone Spacer Kit Set fits 36 mm balancer shafts. This also reduces setup time.

## SPECIFICATIONS

Fits

DB-70 and MB-240X

1-877-432-6627
